

Tony

My son Tony was 34 when he passed away. He was my youngest and was married with two very young children. They are now aged 11 and 9 years.

Tony donated his heart, both kidneys, his liver and pancreas. We miss Tony every day, and we are proud that he was able to save lives by being an organ donor.

I am grateful that my Donor Hero son will be acknowledged along with the thousands of fellow organ and tissue donors during the Donor Heroes Night on 18th May 2021”.

-Tony’s mum, Janice.
