

# Adam

My brother Adam passed away suddenly at the age of 32. He thoroughly enjoyed life and he especially enjoyed being a father to his 1-year-old daughter Zoe.

Adam was a loving and social man with the biggest heart. He was always willing to help others in need. He continued this sentiment when he passed away by generously donating organs to five people who were awaiting transplants.

Adam's family and friends are incredibly proud of his decision to become an organ and tissue donor in order to save lives.

I am grateful that my Donor Hero brother will be acknowledged along with the thousands of fellow organ and tissue donors during the Donor Heroes Night on 18th May. It provides all Donor

Families the opportunity to celebrate publicly the Gift of Life that their loved one has given to our fellow Aussies in need as I did last year.
