

DONOR HEROES' NIGHT

Saturday 18th May 2024

Media Information Sheet

Donor Families Australia (DFA) welcomes the Media in supporting and celebrating Donor Heroes' Night with Donor Families, Recipients, and the Australian community.

Donor Heroes' Night allows Donor Families to commemorate their Donor Loved One, Recipients to thank their Donor Family and the community to acknowledge those that decided to be an organ/tissue donor. DFA has long recognised that Australia's organ and tissue donors are our HEROES within the organ/tissue and transplantation area, having enabled the saving or greatly improving the lives of tens of thousands of Aussies over the past 35 plus years.

The Event this year is hoped to raise the Communities awareness and knowledge of what impact becoming an organ & Tissue Donor has on the Donors family.

Following the nation's highest yearly donation rate of 554 donors in 2018, sadly after the Covid year our donation rate still remains below this figure at 513 donors for 2023. Our greatest concern still continues to be the conversion, with only 55% of the 1,435 families approached consented to their loved one becoming an organ & tissue donor. DFA believes the causes are:

- Those wishing to be a donor following their passing need to have this conversation with their family,
- The family need to educate themselves as to what the organ & retrieval process involves for them - (<https://www.donatelife.gov.au/all-about-donation>),
- The management and support of donor families need to be consistent across all retrieval hospitals,
- Communication post retrieval between donor families and their recipients and their family members need to be managed seamlessly,
- There needs to be a strong repour between the Organ & Tissue Authority and Donor Families Australia (the peak Donor Family body) which does not currently exist.
- While the Australian Organ Donor Register is recognised as a helpful management tool, it should not supersede the issues identified above,
- The Human Tissue Act as it currently stands has a strong bias towards the medical community with little or no involvement of donor families nationally.

Who is Donor Families Australia?

Donor Families Australia is a national member-based independent support and advocacy group comprising primarily of families who have donated their loved ones' organs and tissue. DFA's manifesto is to; **Care** and support donor families, **Advocate** by providing a voice for donor families where change is required, **Educate** the wider community of the benefits of organ and tissue donation, and **Share** our own experiences within our membership. It's the only organisation of its kind in Australia specifically dedicated to supporting Donor Families. DFA was established in late 2012 and its membership is currently close to 1,000 with over 2,900 followers on our Facebook page. DFA also produces a quarterly newsletter with a projected circulation of 6,000. Further detailed information can be found at <https://www.donorfamiliesaustralia.org/>

What is Donor Heroes' Night about and its History?

Donor Heroes' Night is a dedicated event which celebrates, honours, and commemorates the men, women and children of Australia who have given the gift of life through organ and tissue donation.

2020 May, the inaugural Donor Heroes Night was undertaken. The event was inspired by thousands of Aussies commemorating ANZAC day when they came out of their homes in the early morning to remember our ANZAC Heroes, light a candle or played the last post in their memory. So why couldn't the same be done to acknowledge and celebrate the approximate **25,000 Donor Heroes** who have given themselves to save or benefit others during the past 37 years. DFA recognises all organ and tissue donors as well as living donors drawing on data provided from DonateLife and ANZDATA.

2020 resulted in 50,000 Australians through the various social media platforms being involved.

2021 saw this number rise to 125,000 that were involved in the weeks leading up to and including the night of the 18th May 2021.

2022 resulted in involving a total of 260,127 Facebook "Reaches, Likes, Engagements, Comments and Shared postings" which exceeded our original goal of 250,000. The event for the first time reached out to several overseas organisations and it is hoped that this international exposure will continue to grow. On the evening of 18th May 30,623 actions on Facebook involving posting photos of their light/candle and Donor Hero loved one accompanied by comments supported by family, friends, and the community at large occurred.

2023 was equally as successful as that of 2022, as DFA reached out to Australians Federal Politicians resulting in approximately 20 from all sides of politics supporting the Event.

In 2024 it is hoped to expand such involvement as Donor Heroes' Night is truly a National Community Event.

Who are our Donor Heroes?

Donor Heroes are people from all walks of life who have donated their organs and/or tissues or are living donors (kidney & liver) so that others may live or have an improved life.

In Australia we honour the lives of many thousands of donor heroes who have given the gift of life and or improved life to others. They're our brothers, sisters, parents, friends and children.

You can find a list of [Donor Heroes](#) and [their stories](#) on the Donor Families Australia website at <https://www.donorfamiliesaustralia.org/our-heroes> as well as viewing the Virtual Donor "HERO" Wall.

Who and how can the community take part in Donor Heroes' Night?

Leave a Light or equivalent for all our Donor Heroes

- if you are a donor family member,
- if your mate was a donor hero,
- if you know of a donor hero,
- if you are a recipient,
- if you are a recipient family member,
- if you are in need of a transplant,
- if you have signed the National Organ/Tissue Donor Register,
- if you support Organ/Tissue Donation,

Take a photo of your porch light or candle and upload it onto our DFA's Facebook Page at facebook.com/DonorFamiliesAustralia together with your comment. Donor Families are also encouraged to also post a photo of your Donor Hero if you wish. You may also wish to post on your own Facebook Page, Instagram or Twitter account which can help highlight Donor Heroes' Night.

How to go about posting my photo?

Once your photo has been taken on your phone, undertake the following steps:

- Download the photo onto your computer (not required if you are posting from your phone,
- Go to the DFA's Facebook Page within Facebook and enter Donor Families Australia within the Search field or enter the following link within your Internet header
www.facebook.com/DonorFamiliesAustralia and press return

DFA's Facebook head is as follows

- Scroll to the Post Heading “Donor Heroes’ Night”

- Click on “Comment” to initiate your donor hero post, then click on the camera icon to add your photo.
- To add an additional photo e.g. your donor hero loved one, under your own post, click on reply to add your own personal photo.
- Samples of previous posts from past years are displayed below.

Donor Families Australia
Donor Families Australia has always believed that our loved ones are Donor Heroes within the Organ and Transplant System. Ben has been my Donor Hero on this night for the past 29 years having saved the life of a middle aged gentleman and a 12 year old girl at the time. On behalf of all Donor Families I say "Our Donor Heroes will never be forgotten". Donor Heroes Night is for you Ben and the approximate 25,000 organ and tissue donor that have given the "Gift of Life" over the past 40 years.

Janelle Colquhoun

Tonight, on Donor Heroes' Night, I'm commemorating the living and deceased people who have saved so many lives by donating organ and tissue. I've lit a candle in honour of my anonymous donor hero, who was 27 when she passed away, but has given me so far an additional 14 years of life. Thank-you to my Donor Hero for this incredible gift, and to her amazing family who made the decision to donate at such a terrible time in their lives.

Media Enquiries

The following DFA members can provide information arrange interviews at a local level.

Bruce McDowell (WA) Chairman of Donor Families Australia
0427 645 262 mcdowellbj08@gmail.com

I live in Perth WA with my wife Karen whilst previously residing in Geraldton for the past 30 years, raising our family of 3 children. After our 19 year old daughter Alysha passed away in 2008, I became a Donor Dad. I could not be prouder of Alysha for becoming a Donor Hero. At the time of becoming a Donor Family there was no organisation that supported and or advocated for Donor Families. With liked minded families Donor Families Australia was established in 2013. Bruce is the DFA Chair and State rep. It is very pleasing to see this group grow from strength to strength.

Leanne Campbell (Vic) Deputy-Chair of Donor Families Australia
0422 123 014 ricklean@tpg.co.au

We lost our twenty-year-old son, Brett, in December 2009, and became a donor family. Whilst he was not a registered organ donor, we chose to uphold his decision to give the gift of life. Lack of support during and after our donation experience compelled me to speak up for positive change. The need to be supported by others who had walked this journey and who could truly understand how we felt was imperative. I would like to see an end to the bureaucratic approach to policy and decision making. We need a system that places those most affected (donors, recipients, donor's and recipient's families) first, ahead of the emphasis on the organ and tissue register. I believe funds could be much better spent whilst still achieving increased donations rates. The concerns in regard to the letter writing process need addressing now. Consenting donor families and recipients should be able to meet should they wish and be supported through this process.

Graham Harrison (NSW) Coordinator, Donor Heroes Night
0421 697 048 gharrison1953@gmail.com

Graham is a founding member of Donor Families Australia and with the support of his wife Elayne been heavily involved in supporting organ and tissue donation and providing support and advocacy for Donor Families, following the death of his 10 year old son and the donation of his organs in May 1993. Graham went onto be involved in ABC Australian Story, Sixty Minutes, Transplant Australia, ShareLife and Donor Families Australia. It was Graham that has conceived the concept of Donor Heroes Night after observing how the public became involved in ANZAC Day during the Covid pandemic.

State/Territory Contacts

- ACT Barry Mewett** 0408 024 110 barry.mewett@bigpond.com
Barry is a Territory rep. and an active Donor Partner following the passing of his wife Jean in 2005
